

# Explore BlackBerry Storm2 9520/9550 Smartphones

BlackBerry Storm2

### Home

The Home screen displays the BlackBerry logo at the top. Below it are several application icons: Messages (with 3 notifications), SMS, Contacts, and Calendar. At the bottom are the standard BlackBerry navigation keys: Power/Lock key, Sounds icon (ringtone), Wallpaper (background image), Application icon (press to open), Menu key (open menu), and End key (return to Home screen).

### Phone

The Phone screen shows a dial pad with a speed dial number 5195550100 highlighted. Other keys include 1-9, \*, #, and various letters assigned to each number. Navigation keys include Left convenience key, 1 key (check voice mail), Send key (open phone app), Mute key, Call Log icon, Contacts icon, Volume keys, Delete key, and End key (end call).

### Browser

The Browser screen shows a web page with a keyboard overlay. Key features include a Text field (click to show keyboard), History (scroll up or down), Go key (open selected page), and a note about hiding the keyboard by sliding down quickly.

### Media

The Media home screen shows categories: Music, Videos, Pictures, and Ring Tones. Navigation keys include Mute key, Volume keys, and a note about zooming by sliding up or down.

### Camera

The Camera screen shows a camera viewfinder with a flower image. Features include Mute key, Volume keys, Camera button (focus and take picture), Zoom indicator (slide up or down), Flash setting indicator, Low light indicator, Geotagging indicator, and Right convenience key (open camera).

To turn your BlackBerry® device on or off, press and hold the **Power/Lock** key. To lock the screen and side keys so that they cannot be pressed when your device is not in use, press the **Power/Lock** key.

Press the **Menu** on the Home screen to view all application icons. Press the **Menu** key again to move or hide icons, and open the Options screen to change your wallpaper or theme and other Home screen preferences.

Press the **Menu** key in the phone application to set your ring tone, create speed dial numbers, and open the Options screen to set up smart dialing and other phone options. Press the **Menu** key during a call to turn on or turn off the speakerphone or add call notes.

Press the **Menu** key in the browser to open the Options screen to set your home page and fonts, clear your browser history, and change other browser settings. Press the **Menu** key on a web page to switch the page view, search for text, send a web page, and set other web page options.

Press the **Menu** key in the camera application to view your pictures and open the Options screen to set the picture size and quality, change the color effect, and set other camera options.

## Pictures

To scroll through pictures, slide your finger left or right quickly.

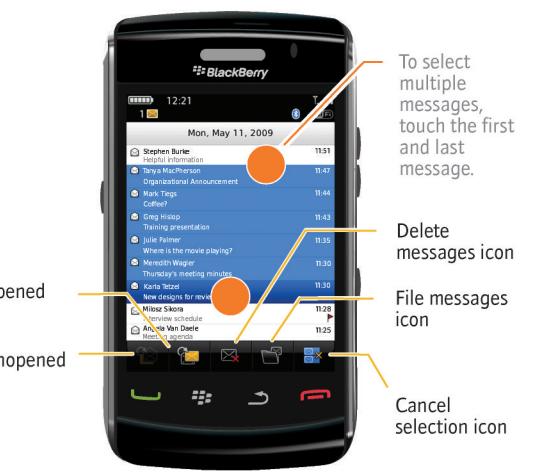

You can also scroll through web pages, messages, calendar pages, and other screens.

To zoom into and then pan a picture, press the screen to zoom then slide your finger in any direction to pan. To zoom out, press the **Escape** key.

You can also zoom into and pan web pages.

Press the **Menu** key in a picture to rotate or resize the picture, send it in a message, or set it as your wallpaper or caller ID. Press the **Menu** key on the media home screen to open the Options screen to sort pictures and set up slideshows.

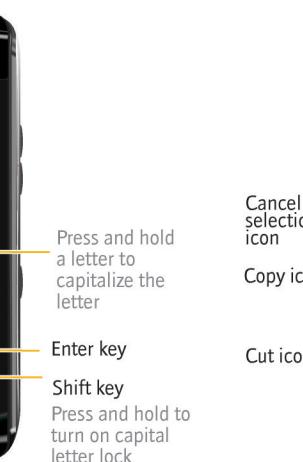

## Messages

Escape key

To select multiple messages, touch the first and last message.

## Type text

123 key

Press to switch to numbers. Press and hold to turn on number lock.

Symbol key

Press to insert a symbol

By default, your device displays a list of suggested words as you type. You can select the highlighted word or continue typing. You can also set options for spell checking and AutoText, and add words to the custom dictionary.

The language that you are typing in determines the typing input methods that are available. For more information about typing input methods, visit [www.blackberry.com/go/docs](http://www.blackberry.com/go/docs).

When you select text, your device displays a frame around the cursor. To move the cursor one character at a time, touch the cursor frame and slide your finger.

You can cut and copy text you type and paste it into applications that include text fields. You can also copy text from most web pages and paste it into other applications.

## Cut, copy, and paste

To select text, touch the beginning and end of the text

## Keyboard views

If you are using your device in landscape view, the full keyboard appears. If you are using your device in portrait view, you can switch between the SureType® keyboard, multi-tap keyboard and full keyboard. The SureType keyboard and multi-tap keyboard show more than one letter on each key. You can set your device to use one of these three portrait keyboards by default.

## Find more information

**Setup wizard application:** Find typing tutorials and videos that show you how to use the SureType® touch screen. Open this application from the Setup folder on the Home screen.

**Help application:** Find step-by-step instructions for all device tasks. Open this application from the Home screen or from an application menu.

For information about setting up your device and learning common tasks, see the *Start Here* poster and *Learn More* booklet that came with your device.
